# Automated fair lending tools at your fingertips

Stratyfy's **UnBias™** identifies bias risk and provides mitigation strategies to ensure it doesn't become a problem for your organization.

## In-house Fair Lending Compliance

- Test and monitor bias as a KPI
- Identify root causes of bias risk
- Address and record bias in one click

## Breakdown Bias Risk

Understand the key components driving bias to know if there is a justifiable business reason behind the bias risk.

## Improve Regulatory Stance

Integrate UnBias™ during the model building stage and as an ongoing monitoring solution to continuously improve your Fair Lending stance.
